	Canoe-men, fishermen, labourers and servants	1/- to 2/-
	Women	1/- to 10/-
	Children	0 0 6
	Any person not included under any of the above classes	Such sums as to the Court shall seem fit.

In Criminal proceedings the Court may, if it thinks fit, direct repayment of any fees paid.

No fees are to be taken which would be payable by any public department; but in Criminal proceedings such fees shall nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid; and in cases where if the defendant should be convicted, any prosecutor or informant would in the opinion of the Court be likely to obtain any part of the penalty or forfeiture, the Court may require the fees for service to be paid.

NOTE :—

- (a) In all cases the value of the property involved or the amount of damages claimed, must be stated in the writ of summons.

The value of land which is the subject of any proceedings shall not be taken at less than £50, except by direction of the Court. Where a writ of summons contains a claim for an injunction besides some other claim only half the fee which is payable on an injunction shall be taken. In all other cases where one summons contains more than one claim, separate fees are payable on each claim.

The same fees are payable on a counter-claim as if the claim had been made by summons.

Penalty for under-estimating the amount involved or value of property in question to be three times the fee payable on the full amount or value in addition to the fee already paid.

- (b) Where an officer serves or executes more than one document or writ on the same route, one mileage fee only is to be charged, and it is to be apportioned amongst the documents or writs.

Where the Sheriff or Registrar executes any duty in person by direction of the Court he is entitled instead of mileage fees, to his actual travelling expenses and such travelling allowance as the Court may direct.

The fees paid to the Sheriff and Bailiffs cover all such expenses as cost of paper, preparation and posting up and delivery of notices, hiring and ringing of bells and the like.

For the performance of any duty not expressly provided for, an officer may receive such fee as the Court may allow.

- (c) The parties or either of them may by leave of the Court provide their own interpreter.
- (d) These fees, together with necessary travelling expenses, if any, shall be paid out of the Colonial Treasury to the persons entitled thereto.
- (e) The travelling expenses of witnesses in all civil and criminal causes and at inquests shall be allowed according to the sums reasonably and actually paid.

An officer in the public service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the public service.

Where a witness actually attends for less than one hour, he may be allowed only half costs if the Court thinks fit.

POLITICAL FRANCHISE.

The Legislative Council, which consists of the Governor, fifteen official members and fourteen unofficial members, contains an elective element, provision being made for the election of six Head Chiefs as Provincial members, three Municipal members to represent the towns of Accra, Cape Coast and Sekondi respectively, a Mercantile member and a Mining member (v. Section 11).

COUNCILS AND ASSEMBLIES. 1934.

Section 11 53

The conditions of appointment to the Executive and Legislative Councils are laid down in the Instructions passed under the Royal Sign Manual and Signet to the Governor and Commander-in-Chief of the Gold Coast Colony dated the 23rd May, 1925.

The members of the Executive Council are the officers for the time being lawfully discharging the duties of Colonial Secretary, Attorney-General, Treasurer, Director of Medical and Sanitary Services, Secretary for Native Affairs, and are styled *ex officio* Members.

The Legislative Council consists of the members of the Executive Council, the Comptroller of Customs, the Director of Public Works, the General Manager of the Railway, the Commissioners of the Eastern, Central and Western Provinces, the Director of Agriculture, the Director of Education and such other persons holding public office under the Crown in the Colony and not exceeding two in number at any one time as the Governor may from time to time nominate and appoint by an Instrument under the Public Seal of the Colony subject to confirmation or disallowance by His Majesty signified through a Secretary of State, who are styled *Nominated Official Members*;

And fourteen Unofficial Members as follows :—

- (1) Six Provincial Members ; namely, three for the Eastern Province, two for the Central Province and one for the Western Province ;
- (2) Three Municipal Members ; namely, one each for the towns of Accra, Cape Coast and Sekondi ;
and
- (3) Five European Unofficial Members, namely :—
 - (a) One representative of the firms which for the time being are members of a recognised Chamber of Commerce in the Colony ; such representative to be styled " the Mercantile Member " ;
 - (b) A representative of the mining industry in the Colony ; such representative to be styled " the Mining Member " ;
and
 - (c) Three Unofficial Members to be nominated and appointed by the Governor by an Instrument, under the Public Seal of the Colony, subject to confirmation or disallowance by His Majesty signified through a Secretary of State.

THERE IS NO HOUSE OF ASSEMBLY.

(a) Including £259 and £240 collected on goods sold from Government stores during 1933 and 1934 respectively.

(b) Including £3,030 and £5,403 collected on goods sold from Government stores during 1933 and 1934 respectively.

(c) Including £12 collected on goods sold from Government stores during 1934

(d) Including £3,289 and £5,655 collected on goods sold from Government stores during 1933 and 1934 respectively.

The revenue derived from dutiable articles imported by *Parcels Post* is included in the above table and amounted to £17,651. The similar revenue in 1933 was £21,186. Decreased importations of artificial silk goods, silk goods, hats, caps and other headgear mainly account for the decrease in revenue of £3,535, or 17 per cent.

The total Customs revenue collected by the Preventive Service in 1933 and 1934 was as follows :—

	Import.		Export.		Total.	
	1933.	1934.	1933.	1934.	1933.	1934.
	£	£	£	£	£	£

1933	236,000	4,971,000	
1934	230,000	4,041,000	

The exports of cocoa overland for the last five years were :—

1930	3,808 tons.
1931	6,563 "
1932	5,604 "
1933	5,435 "
1934	4,882 "

4,877 tons of cocoa were exported overland during 1934 through the Preventive Stations on our Eastern Frontier. Nearly all of such cocoa receives, if imported into France, the preferential treatment which is granted to cocoa grown in a French Colony.

I.—AGRICULTURE AND LAND TENURE.

Land Tenure for the greater part consists of absolute ownership vested in the native states or stools (tribal unit) controlled by the Head-chief or stool-chief and elders. Family and private ownership exists in a lesser degree.

Concessions.—Every grant in writing by a native of any right or interest in or over land or in or to the minerals or produce of land in the Colony or Ashanti is a "concession" and such written grant is subject to the provisions of the Concessions Ordinance.

A sale or lease or agreement to sell or lease land in any town or village—from which sale, lease or agreement all right, interest and property with respect to minerals and precious stones is reserved—is excepted from the compulsory provisions of the Concessions Ordinance.

Assignments or sub-concessions are also excepted but must be registered.

The Concessions Ordinance prescribes the necessary mode of validation and regulates the conditions, mode of notice and enquiry, area and period of the grant.

In the Northern Territories prospecting and mining can only take place in accordance with the provisions of the Mineral Rights Ordinance.

The Land and Native Rights Ordinance, 1931, of the Northern Territories, defines and regulates the tenure of land within the Protectorate and enacts that all native lands and all rights in and over the same from the date of the Ordinance shall be under the control of and subject to the disposition of the Governor and shall be held and administered for the benefit of the native. No title to the occupation and use of such lands shall be valid without the consent of the Governor.

Rights of occupancy are granted by the Governor for periods not exceeding 99 years. Rent is subject to revision at intervals of not less than 20 years in the case of building land and of three years in all other cases.

Except with the approval of the Secretary of State, no right of occupancy shall be granted to a non-native in respect of any area of land exceeding 5,000 acres.

The grant of a right of occupancy is effected by the completion of a contract between the Governor and the incoming occupier. Certificates of occupancy may be issued by the Governor. Before issue the land the subject of the certificate must be surveyed.

Mining leases are excluded from the operation of this Ordinance.

Crown Land :—

- (a) Land for the Public Service is acquired in the Colony under the provisions of the Public Lands Ordinance. Compensation is payable. In Ashanti and the Northern Territories the respective Administration Ordinances provide for acquisition by Government on payment of compensation for building and growing crops.
- (b) Kumasi, Takoradi and Tamale townships are Crown Estates. Land may be obtained in regular plots and on lease only at the approved standard rentals.
- (c) The proportion of Crown Land to stool and privately-owned lands is very small and except in the towns mentioned in (b) there is generally speaking no Crown land available for leasing to the public.

Lands Registry.—A Land Registry exists in which deeds affecting land may be registered. The registry is attached to the Supreme Court, Accra.

Concessions and Licences.	General information regarding the Industry and the possibilities of development.								
<p>Enquiries as to eight new concessions for timber rights were published in the <i>Gazette</i>, affecting a total area of 725,695 square miles. Two certificates of validity were granted.</p> <p>Twenty-three timber property marks were renewed and 30 new marks registered during the year.</p>	<p>The latter portion of the year, 1933 put a period to the depressed state of the timber industry. The mahogany market, particularly, made a satisfactory recovery, due both to the exhaustion of previously accumulated stocks and to a renewed popularity of this wood.</p> <p>Other woods, as judged by the exports, were not in great demand, though a new one, mansonias, was successfully introduced to the English market.</p> <p>Full development is not only dependent on demand, but on a better organisation of the local industry. The demand appears to be increasing and steps are being taken to organise the producers so as to enable them to meet this demand. It is estimated that 6 million cubic feet of marketable timbers are annually available for export.</p> <p>The possibilities of trade in minor forest products are being investigated.</p> <p>The exports for the last four years have been :—</p> <table> <tr> <td>1930-31</td><td>923,515 cubic feet.</td></tr> <tr> <td>1931-32</td><td>469,528 cubic feet.</td></tr> <tr> <td>1932-33</td><td>264,723 cubic feet.</td></tr> <tr> <td>1933-34</td><td>277,958 cubic feet.</td></tr> </table>	1930-31	923,515 cubic feet.	1931-32	469,528 cubic feet.	1932-33	264,723 cubic feet.	1933-34	277,958 cubic feet.

3. FISHERIES.

Fishing is carried on in practically all the towns and villages on the coast. In most cases the fish caught are dried and sent up-country, but no reliable figures are available.

The catches vary enormously and in many districts fishing is only carried on intermittently; as a rule no fishing is done on Tuesdays and Fetish days.

Drift seine and ali nets are used and occasionally hook and line.

The boats used are almost entirely canoes, the lack of a deep-water harbour (except at Takoradi) rendering the use of steam trawlers an impossibility.

The fish caught are :—

Herring, sardine, skate mackerel, horse mackerel, spanish mackerel, chele, catfish, shad, crayfish, sole, tongue sole, turbot, cod, turtle, red mullet, grey mullet, lobster, crab, oysters, prawns, guitar fish, sting ray, butterfly ray, devil fish, flat fish, pampano, thread fin, sea perch, sea bream, drum, hair tail or ribbon fish, barracuda, flying fish, file fish, globe fish, sucking fish, star gazer, gar pike, surgeon fish, wrasse, swallow wrasse, parrot wrasse, snapper, lady-fish, butter fish, cichlid, damsel fish, big eye.

These names do not necessarily represent the exact European equivalent.

The prices vary so much that any figures would be misleading. In some districts fish is exchanged for foodstuffs, but in most cases is sold to inland towns and villages.

The fishermen engaged are all British subjects.

Gold.—The survey of the gold resources was continued and almost completed as far north as latitude 7° 30' N. A detailed study was also made at the request of the company of the surface and underground workings of the Bibiani mine.

Concessions and options have been taken up on a liberal scale and intensive prospecting is being carried out in many districts. Gold production is steadily increasing. Two mines commenced to produce gold in 1934, and it is expected that at least two more will reach the productive stage in 1935.

Memoir No. 3: *The Geology of the Prestea Goldfield*, was published in 1934, and Memoir No. 4: *Gold in the Gold Coast* in April, 1935.

Two new geological maps of the southern section of the Gold Coast, one showing the geology only and the other the positions of the gold mines and prospects as well as the geology, have recently been published.

Andalusite.—A large deposits of andalusite, a mineral used for the manufacture of sparking plugs and other refractories, was discovered near Abodum, four miles east of Bekwai, Ashanti. Samples were submitted to the Imperial Institute for testing. They report that an andalusite concentrate can

readily be obtained by washing, crushing and screening the andalusite earth, but owing to the complex mineral nature of the andalusite crystals it does not appear likely that they can be sufficiently freed from alkalies and ferruginous matter to constitute a satisfactory raw material for the manufacture of mullite refractories.

Lake Bosumtwi.—Volcanic breccias of Pleistocene or Recent age were found in two localities within 1½ miles of Lake Bosumtwi. They prove that the crater in which the lake occurs was formed by the explosion of gases and steam accompanied by volcanic activity. Although the lake has risen at the rate of nearly a foot a year for the past 60 or 70 years at least, it is certain that the lake was at one time about 150 feet above its present level. Fossil fishes and plants were found in lake beds more than 50 feet vertically above the level of the lake. The fishes are of interest as they are the first identifiable remains of *cichlids* to have been found anywhere in the fossil state.

A hydrographic survey carried out in July, 1934, shows that near the centre the bed of the lake is fairly flat and has a depth of 230–240 feet.

6. INDUSTRIAL ESTABLISHMENTS AND MANUFACTORIES.

There are no important industries of a manufacturing nature in the Gold Coast.

The Shell Company of West Africa, Limited, has erected a petroleum bulk installation at Takoradi, which distributes imported petrol and oil in standard containers.

The brewery erected at Accra by Overseas Breweries, Limited commenced operations in May, 1933. During 1934, the output was 283,080 gallons, on which excise duty amounting to £21,231 was collected. This company exports beer to other parts of West Africa in addition to supplying the local market.

Small mineral-water factories and ice-making plants exist at some of the large centres and there is an electric bakery at Accra.

There is also a number of purely native industries which cater for the needs of the local population, such as weaving, pottery, basket-making, wood cutting and carving, canoe building, vegetable dyeing, and the blacksmiths' and goldsmiths' craft.

This section should contain full particulars with regard to labour and wages, including piecework, especially agricultural labour.

The list containing the average prices of articles should include *all the chief staple articles* consumed or used locally. The prices given should be the *retail* prices showing the maximum and minimum rates and the average rate ruling throughout the year. The average *wholesale* export rates (f.o.b.) of the staple products of the Colony during the year should be given for each month of the year as well as for the whole year.

REMARKS.

These questions are to be filled up in respect of each prison in the Colony.

Questions.

I. If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

III. How many cells are there; and how many associated wards?

Answers.

1. There are at present no prisons in the Colony on the separate system. Sekondi Central Prison was originally built on the separate system, but owing to the increase of prisoners it is impracticable to enforce separation, except in the case of a condemned prisoner or for the purposes of punishment. A portion of the building at Accra Ussher Fort Prison also has separate cells but for the same reason separation can only be enforced in exceptional cases.

Apart from the exceptional cases mentioned above, prisoners work and sleep in association.

2. Female prisoners are kept in a separate portion of the prison from the males.

II. The prisoners work in association both inside and outside the prison walls, and are at all times under the supervision of Warders.

III. The following table shows the number of associated wards in the various prisons in the Gold Coast.

V. How are the prisoners classified?

V. The following classifications, in accordance with Regulations 19 and 30 of Regulation 29/1922 are observed:—

Prisoners before trial and debtors are kept apart from convicted prisoners.

Juveniles are sent to the Boys' Home at Kintampo.

There is a further classification for purposes of labour, etc.

- (a) Those undergoing hard labour of the first class:
- (b) Those undergoing hard labour of the second class:
- (c) Those undergoing light labour by order of the Medical Officer, and there is a "special" class with certain privileges for well-behaved convicts.
- (d) Recidivists are separated from other prisoners.

VI. There is no labour by treadmill, crank, or shot drill.

VII. No labour of this nature is imposed.

VI. Is penal labour—that is, labour by treadmill, crank or shot drill—in force?

VII. If so, during what periods of imprisonments, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, etc., secondly the length of spells and intervals of rest.

VIII. What kind of labour, other than penal labour, is in use?

VIII. Carpentry, Tailoring, Boot and Shoe making, Mat and Basket making, Laundry, Crushing and Grinding Corn, Cooking, Road making, Stone breaking, Conservancy work, Water carrying, Repairing and Whitewashing the Prisons, Brick making, Masonry work, Cloth weaving, Wicker furniture making, Brush making, Farming and market gardening.

IX. If the prisoners are employed beyond the walls of the gaol, state—

IX.—1. On all kinds of public work as unskilled labourers according to requirements.

1. On what kind of work they are so employed?

2. By Warders, one to every four prisoners.

2. How are they supervised?

3. How many escapes of prisoners, while being employed beyond the gaol, have taken place during each of the last three years?

3. Total escapes
Recaptures

	1931-32.	1932-33.	1934.
Total escapes	32	20	21
Recaptures	16	14	19

4. How are the profits of their labour accounted for?

4. By monthly returns from each prison in which the Convicts' work is valued according to current rates.

The receipts from the workshops are paid into the Treasury.

X. What was the total annual cost of the prisons during the year 1934?

X. The total annual cost of the prisons in the Colony, Ashanti, Togoland Mandated Territory and the Northern Territories in 1934 was £42,168.

Questions.

XI. What was the annual amount of the prisoners' earnings during 1934?

XII. What is the number of the hours allotted for sleep? And, if sleep is in association, are the dormitories lighted; and how often are they patrolled during the night?

XIII. What were the number and nature of the punishments inflicted for offences committed by prisoners undergoing imprisonment?

Answers.

XI. (a) Actual cash earnings (*i.e.*, amounts paid into the Treasury for private work) in 1934 were £5,648.

(b) The estimated gross value of prison labour during 1934 as shewn by returns from various prisons was £28,568.

XII. Eleven and a half hours. Sleep is in association, and the cells are lighted from outside at Accra, Kumasi, Obuasi and Sekondi. The Prison Warders on duty patrol every fifteen minutes. Tell-tale Clocks are used. The Keeper of Prison makes a surprise visit at least once a week during the night.

Questions.

XIV. Is there, or are there, any Chaplain or Chaplains of any, and what, religious persuasions?

XV. Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

XVI. Are Roman Catholic Priests and Dissenting Ministers allowed free access to prisoners of their own persuasion? And are they apprised when prisoners of their respective persuasions enter the prison?

XVII. What provision is made for the education of prisoners?

XVIII. On what conditions are remissions of imprisonment granted?

XIX. Have Coroner's Inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

XX.—1. What was the sanitary state of the prisons during the year, 1934.

2. What were the prevailing diseases?

XXI. What are shortly, the rules as to Diet?

Answers.

XIV. There are no Chaplains appointed, but the Clergy of the Society for the Propagation of the Gospel, the Wesleyan, the Scottish, and Roman Catholic Missions visit the various Prisons.

XV. At Ussher Fort and James Fort, Accra, services are held every Sunday either by a Clergyman of the S.P.G., Wesleyan or Scottish Missions.

At Keta, service of the African Methodist Episcopal Zion Church is held on Sundays.

At St. Jago Fort, Elmina, once a month and occasionally by the Wesleyan Minister and Roman Catholic Priest on Sundays; at Cape Coast regularly on Sundays, by the Clergyman of the S.P.G.

At Kumasi, by a Clergyman from the Scottish Mission Society and S.P.G. alternately.

At Sekondi, by a Clergyman of the S.P.G.; also by the Roman Catholic Priest and Wesleyan Ministers.

XVI. Yes, but at the prisoner's own request or in cases of prisoners under sentence of death. It is not, however, customary to apprise them when prisoners of their respective persuasions enter the prison.

XVII. None.—They are provided with books if they ask for them and can read; at least 75 per cent are illiterate.

XVIII. Every convict sentenced to penal servitude or imprisonment for two years or upwards has his time of detention represented by a certain number of marks, and, if, in accordance with the Rules in force, he by hard and steady labour earns that number of marks before the expiration of the term for which he be sentenced, he shall be discharged.

Every such convict may earn a remission of one-fourth part of his sentence, *i.e.*, he may by good conduct and industry earn 8 marks a day, whereas each day of detention is represented by 6 marks.

Remissions are also granted by the Governor as acts of grace upon the recommendation of the Chief Justice or Director of Prisons or Medical Officer.

XIX. Yes. The verdicts were all deaths from natural causes or by hanging in execution of the sentence of the Court with one exception viz:—

Drowning in attempting escape.

<i>Lorries.</i>					
Albion (a)	Great Britain	30 and 40 cwt.	Weights of chassis are those of standard types. The bodies are usually made locally, and vary greatly in weight, ranging from a light platform to heavy box and covered in types.	This cost is governed by the class of road in the locality where the transport is required. Generally the rates are from 4½d. for long distances where heavy lorries can be used, up to 1s. 8d. for short runs or where light lorries only can be used.	<p>All fitted with single pneumatic tyres. Lorries are usually used with two-wheeled trailers. Where such trailers are used the capacity of vehicle is raised by 7-25 cwt. over the nett lorry capacity.</p> <p>(a) Used with one four-wheeled trailer carrying up to 3½ tons. Maximum governed speed allowed 12 m.p.h.</p> <p>(b) Used with three four-wheeled trailers for town work: total load capacity 12½ tons. Maximum governed speed allowed 6 m.p.h.</p>

GOLD COAST SHARE OF FOREIGN POSTAGE.

The Gold Coast retains the whole of the postage on letters, etc., and under a system of apportionment contributes the sum of £1,115 annually to the United Kingdom towards the cost of the Sea Service.

The postage on parcels is divided between the Gold Coast, the Steamship Companies and the country of destination.

There are harbour facilities in the Gold Coast at Accra and Takoradi.

Ships lie in open roadsteads and are worked by surf-boats at Axim, Cape Coast, Half Assini, Keta, Ada, Winneba and Saltpond, which have resident officers of Customs.

Denu, Bonyere, Atwabo, Ahobere, Elmina, Dixcove, Butre, Adjua, Shama, Sekondi and Apam are sufferance wharves for lading and unloading, Beyin, Prince's Town, Twin Rivers and the mouth of the Ankobra River for lading only: Customs Officers attend by arrangement.

At Accra a small breakwater provides a small sheltered area for surf-boats only. There is a jetty provided with cranes which enables cargo to be landed direct from lighters and surf-boats.

Takoradi Harbour provides sheltered accommodation for shipping at all states of the tide and has about 150 acres of deep water. Vessels drawing up to 27 feet 6 inches can discharge and load alongside direct into transit sheds or trucks. Moorings are also provided for vessels of similar draught and cargo may be dealt with by lighters. Cranes at general cargo berths are capable of lifting up to 2 tons and those at the lighter wharf up to 3 tons. A 10-ton crane is also provided at the lighter wharf and a 25-ton crane can be supplied at the main cargo wharf upon due notice being given.
